Subject: Water testing for the 2019 Erie County Fair

Terry,

For the past 12 years the Erie County Agricultural Society (ECAS) has been required by the Health Department to conduct Bacteriological sampling at the Fairgrounds prior to opening the Erie County Fair. I as the operator of record for the Fairground's water system I would take the samples and the ECWA Lab would preform the Bacteriological testing free of charge. This arrangement was approved by past Boards. With the retirement of Paul Whittam and the upcoming retirement of Bob Lichtenthal, I wasn't sure any of the current Board members were aware of this arrangement.

I hope the Board will continue this arrangement and I look forward to working Sabrina in her new position.

If you have any questions, please contact me.

Thanks Wes
