Sturgeon Point WTP Sludge Removal, Disposal, and Relocation.
ECWA Project No. 201900091

The sludge, which is a byproduct from the water treatment process is stored, thickened, and finally dried in four lagoons. The work in this contract consists of removal and disposal of sludge material that has been thickened and now stockpiled in a drying area of Lagoon #4 as well as relocating sludge within the basins of Lagoon #4 to the drying area and relocating sludge from Lagoon #1, 2, and 3 to the Lagoon #4 basins.

Production Department is seeking Board Resolution to Advertise for the above referenced contract. The following documents are attached:

- Blue Authorization Form - this form provides the project name and project number, the action that is being requested of the Board, and it provides a list of approvals that are required prior to being acted on by the Board.
- One (1) set of Contract Documents.

The Project Manual needs to be reviewed by the Risk Manager and the Legal Department before the Board can provide the Authorization to Advertise.
